A cyberattack can escalate in minutes, contracts and approvals shouldn't stand in the way.

We provide guaranteed access to expert responders, pre-established terms, and priority support in the event of a security incident. With a retainer in place, your organization can immediately initiate response, containment, and recovery efforts, eliminating critical delays when time matters most.

## Faster Response. Less Impact. Zero Delays.

**Priority Response & 24/7 Access:**
Guaranteed SLAs with around-the-clock availability via secure channels, remote or on-site—based on incident severity and retainer tier.

**Flexible Retainer Usage:**
Use prepaid hours for immediate incident response or apply them to other cybersecurity services, such as readiness assessments or tabletop exercises.

**Post-Incident Guidance & Readiness Support:**
Receive strategic recommendations, optional debrief sessions, and readiness services, helping your organization recover stronger and prepare smarter.

## WHY CHOOSE US?

**Real Incident Response, Not Just Paper Readiness:**
Backed by decades of breach-handling experience, our team responds with clarity and urgency.

**Priority Response, SLA Guaranteed:**
You don't wait in line, your case is escalated immediately based on your retainer tier.

**Convertibility & Flexibility:**
Apply unused hours to readiness services, helping you improve between incidents.

**Built for High-Stakes Environments:**
Trusted by highly regulated organizations with complex infrastructure & compliance needs.

## OUTCOMES YOU CAN EXPECT

When an incident strikes, speed is everything. We deliver expert support from the first alert, so you can respond fast and with clarity and execute:

- Rapid containment of active incidents
- Minimized downtime, damage, and data loss
- Lower response costs through pre-negotiated terms
- Confidence in your ability to act—without administrative delays
- Flexibility to use hours proactively or during crisis

## DELIVERABLES:

You'll receive clear, actionable deliverables to support incident response, recovery, and long-term resilience:

- ✅ **Response Action Log & Containment Timeline**
- ✅ **Incident Summary & Root Cause Report**
- ✅ **Strategic Remediation Recommendations**
- ✅ **Optional Post-Incident Debrief & Executive Briefing**
- ✅ **Incident Readiness Assessment**
